BACK ALLEY BANDITS

Distributors in America, Stud Mall, had done some research from the 'gay man on the street' (punters of porn) and found that the French-Algerian look was kind of in vogue at the moment and so director-producer, Maxwell B. took up the challenge to deliver the yanks more than a hot dog and apple pie for supper! "We always listen to what customers are looking for (wanking over)" Max told us. "People's tastes go in fads and it was clear that the hairy, dusky, Arab kind of look with a combination of French and Algerian ethnic mix was becoming popular in the U.S. So in good tradition of 'what they get over there, we get over here' kind of attitude, we thought we'd give it our own spin". Max almost sounds like some kind of Doctor Frankenstein when it comes to his casting, but we were assured that he'd created his desired mix – but without the addition of bolts in the neck and dead flesh!

So, assuming that we'd been invited on a exotic trip to say North Africa to a secluded desert location to witness the filming of *Back Alley Bandits*, we dug out our passports and slapped on some factor 15. To our surprise, however, we were guided to a railway arch in South London. Max was quick to quell our disappointment though. "We have enough sexy fuckers in London and Europe for this flick. We scouted as far as Denmark to fly in one new lad, in the form of Nick Lavallo, a delicious, mixed race, pig-minded stud who was studying in Europe from his homeland". And we had to agree on his tactics, as Nick and porn regular Mark Summers got stuck into a wet and intense scene for the cameras. We also got a good ogle at Toby, who Max admitted was Columbian rather than Algerian, but he still looked the part as he got stuck into his second scene of the day. Yes, this man sure has the stamina! Check out his exclusive online interview at www.bulldogpit.com.

Going through the cast, Max told us, "We also got over French porn pros like David Castan, Theirry Lamasse and the Parisian guy with the superhuman stretchy arse, Demetrius," who Max delightfully informed us that he can get three (and we're not talking Shreaded Wheat here) but three fists up his arse! "I saw Demetrius' photos on Dudes Nude," Max told us enthusiastically, with the excitement of a South London gangster who's just found a 44 Magnum in a Christmas cracker. "...And the three fist insertion picture raised my eyebrow just a tad. I think three fists is a bit much for a family film like *Back Alley Bandits*, but we did shoot some fisting with him which will also be on the clubsite www.bulldogpit.com. Other new faces recruited for the movie include Rafelle - a delicious young hunk who seems to be a favourite of the London gay scene photographers at the moment - and Kornelius, who truly is the genuine French-Algerian article 100%. Having seen the guys performing on set and being privy to an early cut of the film, QXMEN can confidently say this will be one stylish, well crafted and highly charged piece of porn to add to your Estate when you die.

Back Alley Bandits from BulldogXXX is released through www.eurocreme.com and will be available in all good DVD adult stores. And, of course, under the alter at all good, honest to God churches early this month.
